> [From the Dover, N. H. Gazette.] Dr. Richardson's Bitters.—In our columns may be found an advertisement of Sherry Wine Bitters, propared by Dr. S. O. Richardson, of South Reading, Mass. They are, as said to be, undoubtedly composed of a variety of valuable and purely vegetable matter, and from our own experience, as well as others. we can speak highly of their renovating and invigorating effects upon the system. We have a good opinion of the Bitters, as they are not a quack nostrum, but discovered, prepared and vended by a regular physician, a graduate of the college of our own State and who has said but little in the way of pulling them and who has said but little in the way of pulling them himself, but leaves it to those who try them to judge themselves. For the diseases that many are liable to in the Spring and Summers, such as Devility, Daysopsia, Billious and Nerrous complaints, we do not hesliate to say that these Bitters will be found a safe, agreeable and effectual restorative. As good health sone of the greatest of earthly blessings, we would early advise those laboring under such disease, to make a trial of Dr. Richardson's Bitters, they can do no harm, and may do much good, as we are confident in many cases they have. Vegetables and vegetable substance are unquestionably the most congenial to the human system. Sold by G. Kaufman & Co. 4w36

HOSTETTER'S STOMACH BITTERS

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TETTER'S CELEBRATED STORMS TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon the confidence of t this point will speak more powerfully than rolumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfmillion bottles, and from its manifest steady the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sapetion of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements

and the diseases resulting therefron This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostster's Stomach Litters have proved a Godsend to regions where fever and agus and various other billous complaints have counted their victims by hundreds. To be able to state confidently that the "Ditters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them

mildly but powerfully, and soon restores them to a condition easential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while sufficient from stomach descriptions. preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene rally prefer the Bitters to all other tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea; dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial. ,,, CAUTION.—We caution the public against using any of the many imitations of counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters' blown on the side of the bottle, and stamped on the metallic cap covering the cork, observe that our autograph signature is on the
